LF audio cable, 3.5 mm audio jack to RCA phono

Excellently made preassembled digital-electrical audio cable for connecting digital soundcards (PCs) to hi-fi and home-cinema systems! The constant impedance of 75 ohm and the particularly high-quality inner conductor made from oxygen-free copper (OFC) mean that the particularly stable and true-to-life transmission of signals can be achieved with this Oehlbach cable. Metal cinch plugs and audio jacks plated with 24-carat gold guarantee perfectly reliable contact and pleasant handling. The robust and flexible outer sheath makes this cable fit for all purposes while simultaneously guaranteeing long life spans.
